

EV9318-40

Solaria Water Appliance

Low volume premium water appliance for drinking water applications

Solaria Water Appliance: EV9318-40

BENEFITS

- Proven commercial grade quality
- Produces piping hot water on demand at 190°F 100 cups of water per hour, delivering more volume than the competition
- Compact unit mounts on wall in virtually any cabinet
- Insulated stainless steel tank is energy efficient and maintenance free
- Powerful 1300 watts for quicker recovery
- Easy to install with quick connect fittings
- Fingertip temperature adjustment
- Heater protection with self-resetting thermal fuse, which prevents accidental dry starts
- UL listed

INSTALLATION TIPS

- Open vent faucet is required, connecting to a standard faucet will damage the tank and void the warranty
- Position the appliance in the point of installation, away from sources of heat and direct sunlight
- Do not install the appliance outdoors and in very damp rooms
- The appliance should be positioned in such a way as to leave approximately 4.00 to 6.00 inches of space free for air to circulate freely
- Ensure John Guest fittings are secure before operation
- Power cord installed is installed at factory - connect to electrical power

OPERATION TIPS

- To ensure the highest quality water, use in combination with an Everpure filtration system
- Open supply line valve
- Purge air from all water lines by using water through faucet. A steady stream assures all air is removed
- A steady stream assures all air is removed
- Rotate fan to insure proper clearance and free fan action
- Connect to electrical power
- Thermostat can be adjusted from 140°F to 190°F
